

Joint Agency VGI Working Group Workshop #2

September 26, 2019

[The Intersection for the Arts](#) (1446 Market St, San Francisco, CA 94102)

Remote Access: <https://zoom.us/j/146288655>

+1 720 707 2699

Meeting ID: 146 288 655

California state agencies launched a new joint Vehicle-Grid Integration working group on August 19, 2019. As directed in the [California Public Utilities Commission Rulemaking \(R.\)18-12-006](#), the new working group will focus on identifying, capturing, and scaling the value of VGI. At a minimum, the working group scope will cover:

- a. What VGI use cases can provide value now, and how can that value be captured?
- b. What policies need to be changed or adopted to allow additional use cases to be deployed in the future?
- c. How does the value of VGI use cases compare to other storage or DER?

Meeting Purpose: This meeting is intended to review and discuss the proposed valuation methodology from Subgroup A, come to consensus on using this methodology throughout the Working Group, and launch Subgroup B for our next stage, answering PUC Question 1 (above)

Working Group Materials:
