Action Items:

- The VGI Working Group Meeting #4 is coming up on 1/22-23
 - Subgroup Members working on presentations must submit them by end of day 1/20
-

| Agenda | | |
|-------------------|-----------------|-----------------------------------|
| <i>Start time</i> | <i>Duration</i> | <i>Item</i> |
| 10:05 | 10 mins | Ford Entries - deadline extension |
| 10:15 | 10 mins | Questions from Subgroup members |
| 10:22 | 8 mins | Workshop Agenda Review |

Discussion:

- **Ford entries**
 - Ford's scorings were omitted upon submission
 - As a result, Gridworks is extending the deadline for presentation submissions to end of day on Monday 1/20.
 - Questions on Data Presentations
 - How do we capture use case value?
 - Core piece for value is benefits; most of our discussions on capturing value during scoring have to do with the application of the use case.
 - Value can be captured in Caiso products, etc. Big discussion is who has access to value.
 - Easy case: Fleet owner and EVSE owner - capturing savings is very straightforward, monetized in savings on electricity bill with correctly structured rates.
