

**VGI Working Group
Subgroup C
2/27/2020 Call Notes**

Action Items:

- Volunteers ready submissions for policy recommendations by March 5th call.
-

Agenda		
<i>Start time</i>	<i>Duration</i>	<i>Item</i>
10:00	20	Recap from last call: next steps
10:20	25	Looking at metrics documentation

Additional Topics of Discussion:

- **Recap of previous meeting and action items:**
 - Inputs from participants for policy recs are pending by March 5th
 - Eric has cleaned up submissions sheet for inputs
 - New column for relevant use cases added
 - Submissions pending from:
 - Mauro D., Karim F., John Wheeler, Albert Chiu, Noar D.
 - Honda, Enel, VGIC are all putting together submissions
 - Nuvve and EI not present, but also considering contributions
- **PUC metrics - Ed Pike**
 - Use of Metrics: What is overall objective? What metric will be used to determine that goal?
 - Metrics are for suggestions purposes: e.g. - List of examples provided by PUC
 - Not necessary to follow, but a guide
 - Metrics can be used or not, or new ones used
 - As we use these metrics, what useful changes could be made?
 - Can we treat the CPUC list of metrics as a working document that can be edited?
 - Eric - Questions and edits can be forwarded to the subgroup leaders .
- **Plan from 03/05 and 3/12 - Karim Farhat**
 - How extensive are the party recommendations?
 - All parties should submit whatever they have on the 5th, since there will be a synthesis coming on the 3/12 deadline
 - Determine what is the best deliverable from the Subgroup?
 - Final product of this subgroup could go beyond the sum of recs from parties
 - Matthew Tisdale - Quality is preferable over quantity of recs
 - One high impact suggesting worth more than 10 on the margin
