

High Road Labor Standards in Transportation Electrification: Meeting 3 Agenda

April 6, 2021 | 3:30 - 5pm | Location: <https://us02web.zoom.us/j/9165010036>

Meeting Objectives:

- Review and receive feedback on principles for high road jobs in transportation electrification
- Build consensus on framing for high road workforce standards
- Gain clarity on key concepts for workforce standards that serve community and environmental needs
- Discuss the outline / structure for the final report (if time)

Agenda:

Time	Topic
3:30 - 3:45	Welcome <ul style="list-style-type: none">● Introductions: Name / Organization / Springtime Ambition(s)● Recap of Meetings 1 and 2● Meeting Objectives
3:45 - 4:10	Principles for High Road Jobs in Transportation Electrification <ul style="list-style-type: none">● Do the California Workforce Development Board's principles for a high road workforce development agenda (see section 2) provide an accurate and actionable foundation for jobs in transportation electrification?● Are there additional principles, or nuance to the CWDB's principles, that are needed to apply to jobs in transportation electrification?
4:10 - 4:30	Framing High Road Workforce Standards: <ul style="list-style-type: none">● Framing should address: What is a high road workforce standard? What is the purpose of high road workforce standards? Why are they needed in transportation electrification?● What is missing or needs emphasis in the framing shared so far (see section 3)?
4:30 - 4:55	Key concepts for workforce standards (see section 4) <ul style="list-style-type: none">● Thus far, our conversations have focused on workforce standards typically discussed in the context of labor/union negotiations - what key concepts need to be added or emphasized to address community and/or environmental needs?
4:55 - 5:00	Wrap up and Next Steps
