

GRIDWORKS

Today's Objectives

- Provide overview of components and practices of Integrated Distribution Planning
- Gather stakeholder input on components of planning and developing an integrated distribution planning process

Today's Agenda

10:00 - 10:10 am - Welcome and review of February 17 webinar series kick off meeting

10:10 - 10:40 am - Overview of Integrated Planning for the Distribution System Supporting Grid Modernization

Lisa Schwartz, Manager and Strategic Advisor for the Electricity Markets and Policy Department, Lawrence Berkeley National Laboratory

10:40 - 10:45 am - Clarifying Questions and Answers

10:45 - 10:50 am - Explanation of Discussion Process

10:50 - 11:20 am - Facilitated Discussion

Objective:

- Hear from stakeholders concerns and opportunities for distribution system/integrated planning
- Identify important components for inclusion in the NORP

11:20 - 11:30 am - Wrap Up

- Participant Survey
- Next Steps

The decarbonization of our economy is within reach, and more important than ever.

We convene, educate, and empower stakeholders working to decarbonize our economy.

GRIDWORKS

Integrated Distribution Planning

Lisa Schwartz
Electricity Markets & Policy Department
Berkeley Lab

Introducing Facilitated Discussion Process

Facilitated discussion time in Grid Modernization webinar series will follow a consistent format

Grounding

What did you hear? What stood out to you?

Reflective

What information surprised, confused or intrigued you?

Interpretive

What insights have you had? What does it mean for us?

Decisional

What do we agree upon? What needs additional work? What are our next steps?

Objective:

- Hear from stakeholders concerns and opportunities for distribution system/integrated planning
- Identify important components for inclusion in the NOPR

- **Participant Survey**
- **Next Steps**
 - Gridworks summary of today's webinar
 - March 17 Webinar: Advanced Metering Infrastructure with Jim Ogle (PNNL)
 - April 7 Webinar: Distributed Load Forecasting (NREL)

HOW CAN WE HELP?

GRIDWORKS

Purpose

- Support development of Notice of Proposed Rulemaking (NOPR) on Grid Modernization
- Share information, gather participant input and identify issues to address in NOPR development

Approach

- Subject matter expert speaker presents on topic
- Facilitated discussion to gather participant perspectives
- Summary of workshops documenting participant input for PRC use in rulemaking

Dates and Topics

March 3 - Integrated Distribution Planning Overview (Lisa Schwartz, LBNL)

March 17 - AMI and Communications (James Ogle, PNNL)

April 7 - Load Forecasting (NREL)

April 21 - Hosting Capacity (Sky Stanfield, IREC)

May 5 - Non-wire Alternatives (Lauren Shwisberg, RMI)

May 19 - Transportation Electrification in DSP (Trina Horner, Kevala)

June 2 - Evaluation methods for grid investments and DER (TBD)

June 16 - Best practices from other states (Will McNamara, Sandia)

June 30 - Procedures for submitting and reviewing Grid Modernization Applications

July 21- Recap and summarize findings and recommendations
